REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1-20 and 27 are allowed as the prior art does not teach or suggest the applicant's invention. The amended claim language and the applicant's remarks in response to the Office Action (mailed on 5/20/2004) distinguish the application's invention over the references that accompanied the Office Action. In particular, independent claims 13, 5, 6, 8, 10, 11, and 12 teach first and second pole pieces including first and second pole tips separated by a gap layer; the first and second pole pieces each including a body-centered cubic (BCC) nickel-iron alloy layer containing from 64% to 81% iron by weight. Claim 27 teaches a method for fabricating a magnetic write head by annealing ferromagnetic materials in a first and second magnetic pole layers to reduce the coercivity to less than about 160 amps/meter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
